

SERENITY

Serenity N14M82

Product Description

The Serenity N14M82 laptop is the ideal technological tool for the education sector as well as home use.

With a 14inch display, 1920*1080 IPS resolution and Windows 11 OS, Serenity N14M82 laptop is the perfect learning device for more efficient and detailed note taking, faster writing and editing, and convenient group work and study.

Using laptops in classrooms and for homework will help the students to learn to type quickly and accurately, they can record notes much faster than writing by hand.

With a 4500mAh battery capacity, technology can be used in conducting research, developing materials, managing student information, and easy communicating with student colleagues, and the parents.

The Serenity N14M82 laptop offer these advantages to users and students no matter what their grade or age.
